GARAGE DOOR SEALS

REPLACEMENT WEATHER SEAL RANGE FOR MAJOR GARAGE DOORS SUPPLIERS

PROTECTION | WEATHER SEAL | PRESERVATION

REPLACEMENT SEALS

GARAGE DOOR SEALS

Help keep your garage clean and dry.

As garage door seals are typically made from an extruded rubber, they will gradually deteriorate over time due to compression, shrinkage and deformation. Replacing and upgrading your garage door seals help restore efficient functionality and keep your garage clean and dry by greatly reducing the infiltration of debris, water and pests

The removal and installation process is generally straightforward, involving sliding the old seal out of the carrier, cleaning the carrier and then sliding the replacement seal back into the carrier. Our replacement seal range may suit a number of door types, including Roller, Sectional, and Tilt-up doors.

WEATHER SEALS

THRESHOLD SEAL

At 5.4m long, the Cowdroy garage door seals range easily covers a double garage and allows for greater flexibility during installation.

CMG14154BK
