INTERNAL DOORS

SLIMLINE HIGH QUALITY TRACKS

Triumph is a high quality door track system, suitable for sliding doors up to 80kg in weight. The slimline, enclosed track design improves safety by ensuring the wheels cannot jump out of the track, and is available in wall mount or top mount options.

Triumph features quality 4-wheel carriages, incorporating fully sealed ZZ ball bearings, nylon tyres and a quick-release mechanism, for faster installation.

With an unobtrusive nylon door guide and optional clip-on pelmet, the Triumph system is ideal for both residential and commercial applications.

APPLICATION

Suits:	1 door
Max. Door Width:	1500mm wide
Door Thickness:	18mm

WALL MOUNT OPTION

TOP MOUNT OPTION

SMOOTH ROLLING ACTION

Triumph 80kg provides a flexible solution for high traffic areas, dedicated to suit a wide range of applications and door constructions, such as timber & MDF panels.

The bearing mechanism in hanger, combined with the unique track profile offers years of silent, smooth operation and superior rolling performance every time. An overall system designed for simple installation and ease of adjustment with a built in quick release mechanism.

FEATURES

TRIUMPH SLIDING

CLIP-STOP DOOR STOP

The clip-stop door stop allows doors to be conveniently retained in either the open or closed position.

QUICK RELEASE MECHANISM

Installation made easy with the hanger's top plate that is quick to assemble and incorporates a latching mechanism for rapid installation. This functionality allows simple and accurate height adjustment all from one quick release mechanism.

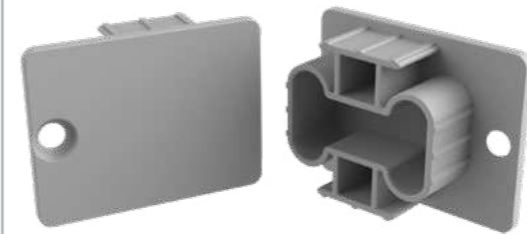

QUALITY ALUMINIUM TRACKS

To suit a variety of applications, tracks are available as Top mount or Wall mount in both mill and clear anodised finish for an improved corrosion performance.

OPTIONAL EXTRAS

REMOVEABLE CLIP ON PELMET

For a flawless, concealed finish, easy clip on pelmets are available in both mill and clear anodised finish to suit multiple styles and aesthetics.

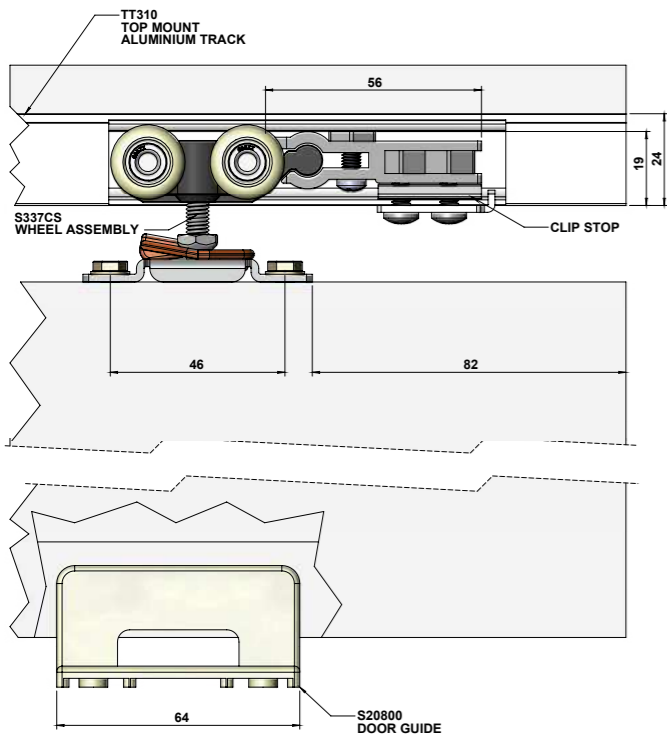

UNIVERSAL CLIP ON PELMET CAP

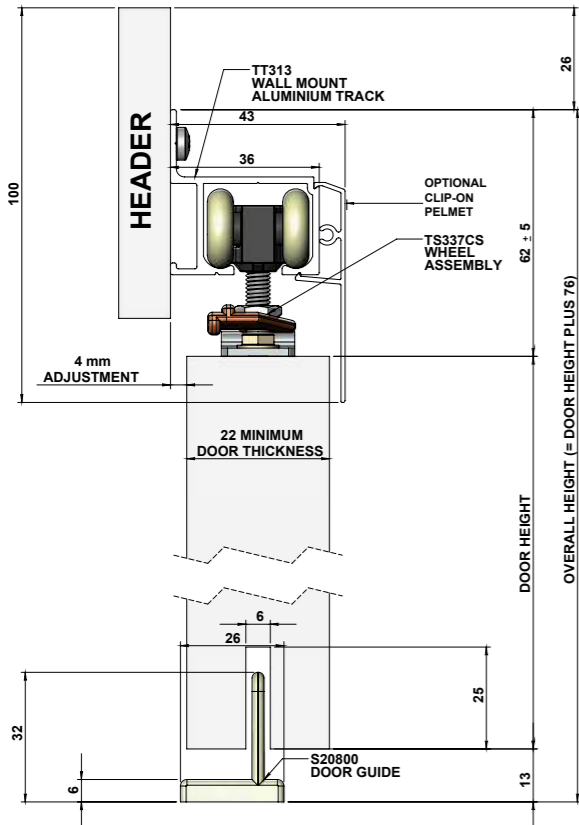

Used in conjunction with the clip on pelmet, the universal clip on pelmet cap is available to finish off the track and pelmet application.

RELIABLE FOLDING DOOR SYSTEM

Triumph is a high quality door track system, suitable for folding doors up to 18kg* in weight. The slimline, enclosed track design improves safety by ensuring the wheels cannot jump out of the track and is available in a range of sizes.

Triumph features quality 4-wheel carriages, incorporating fully sealed ZZ ball bearings, nylon tyres and a quick-release mechanism, for faster installation. Adding on the robust pivot sets allow for multiple-panel applications.

Ideally suited for 2-4 doors in one direction, Triumph may also be used for up to 8 doors when used with a bottom guide system.

*Weight can be increased to 25kg per panel if centre-pivoted.

APPLICATION

Suits:	up to 8 panels

ROBUST HARDWARE FOR FOLDING PANELS

Triumph Folding works both as a practical and functional space saver that can transform any space.

The robust hardware features fully sealed hangers with precision ZZ bearings and nylon outer tyres. Combined with the enclosed aluminium tracks and durable chrome hinges, Triumph Folding provides a smooth folding and rolling system for any indoor folding door of up to 25kg.

FEATURES

HIGH STRENGTH HEIGHT ADJUSTING PIVOT

Easily adjustable top and bottom pivots work simultaneously to achieve a high strength functioning door system.

DURABLE FOLDING HINGE

Durable folding hinges allow Triumph Folding to easily maneuver smoothly when panels are in the opening or close position.

WRAP AROUND TRACK

Door jumping is eliminated with secure aluminium tracks, meaning wheels cannot jump or misalign off the track.

OPTIONAL EXTRAS

EXTRA GUIDED SUPPORT

The optional Aluminium Guide channel used in conjunction with the Spring Loaded Guide provides greater support and allows for up to 8 doors to be utilised.

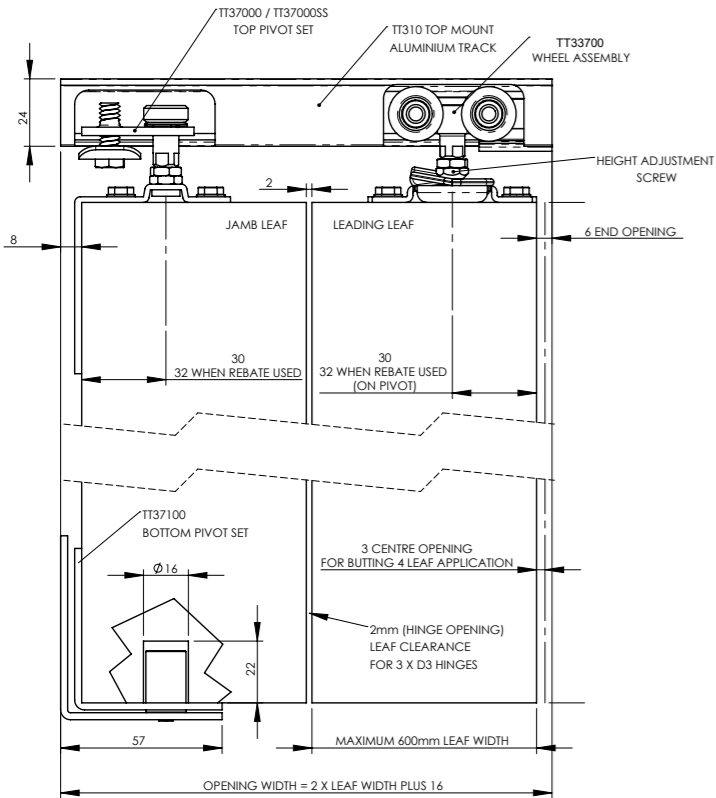

QUICK RELEASE MECHANISM

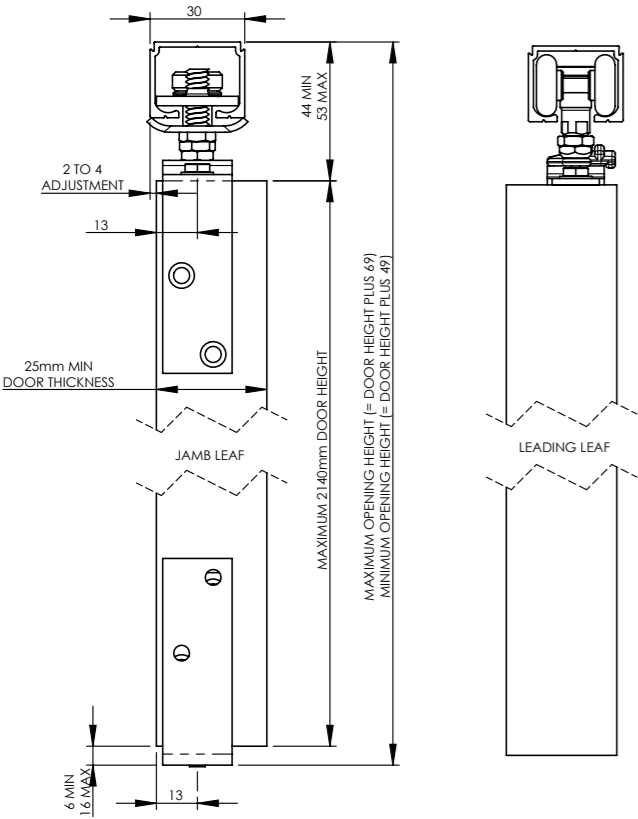

Installation made easy with the hanger's top plate that is quick to assemble and incorporates a latching mechanism for rapid installation. This functionality allows simple and accurate height adjustment all from one quick release mechanism.
