

The Joinery Sheave is a compact wheel assembly with a 60kg weight rating in a full Stainless steel construction. The compact size and added feature of 6mm height adjustment makes this sheave a popular choice for small to medium windows and doors. Track and guide can be used back to back to allow for multiple door applications.

FEATURES

- Track:** Slimline brass bottom track
- Wheel assembly:** Stainless steel wheel assemblies with height adjustment
- Key features:** Compact design to suit window applications
- Door Guide:** Top mounted aluminium T guide
- Optional:** Alternate guide options available
