WETLINE ADVANCED POLYMER BOARD

# WETLINE SERIES

## WETLINE ADVANCED POLYMER BOARD

A light weight polymer board ideally suited to applications where a sturdy, weather resistant panel or substrate is required.

### FEATURES

- Waterproof
- Lightweight
- Resistant to mould & mildew
- Weather resistant
- Good acoustic & thermal insulator
- Can be thermally moulded into unique shapes
- Resistant to most acids and alkalines
- Resistant to white ant & termite attack
- Self extinguishing within 10 seconds when flames

## WETLINE SERIES ADVANCED PVC BASED BOARD

### COLOURS

White

*Working with  
Wetline requires  
the skills and tools  
normally used in a  
panel and joinery  
business.*

**WETLINE are of identical composition.**

For your safety and environmental responsibility, NO Lead or Organotin based compounds have been used in the production of WETLINE.

*NOTE: Do not use Toluene (thinners) or petroleum based solvents. Clean only with water based detergents.*

*The standard white of WETLINE may vary from batch to batch.*

## SUITABLE APPLICATIONS

Kitchens

Bathrooms

Roadcases

Exhibition Booths

Public Toilets

Poolside BBQ

Lightweight Interiors

## ABOUT THE PRODUCT

**WETLINE is delivered to you with a protective membrane on one side, for transit, storage and processing.**

When used as componentry for cabinet construction, all joints must be glued and either nailed or screwed.

When used as a wall sheeting or substrate, panels must be glued and either nailed or screwed at regular intervals onto framework at 450mm centres.

When working with WETLINE, readily available adhesives, sealing adhesives and joint fillers suitable for PVC with a polyurethane base give optimum results.

In applications where long continuous butt joints or corner joints are required WETLINE can also be heat welded using standard PVC heat welding equipment.

Cowdroy does not recommend WETLINE be used for door applications.

**The advanced formulation of Wetline ensures a far superior “close to edge fixing” and reuse of fixing points than wood chip and fibre based panels.**

WETLINE is a thermoplastic polymer, care must be taken when exposed to continuous sunlight and high temperatures, an appropriate thickness of sheet should be selected with adequate fixings to a backing frame that allows for thermal expansion.

WETLINE have the potential to be used in a variety of innovative applications, as such fitness for purpose in specific applications is the responsibility of the customer.

## RE-ORDER CODES

### WETLINE SERIES

Code	Sheet Size	Thickness	Density	Pack Size
LW12.122.244WH	2440 x 1220	12mm	600 kg/m <sup>3</sup>	BOX OF 3
LW16.122.244WH	2440 x 1220	16mm	600 kg/m <sup>3</sup>	BOX OF 2
LW18.122.244WH	2440 x 1220	18mm	600 kg/m <sup>3</sup>	BOX OF 2
LW25.122.244WH	2440 x 1220	25mm	600 kg/m <sup>3</sup>	BOX OF 1

Cowdroy is an Australian company supplying industry leading products across residential and commercial properties.

Established in 1890, Cowdroy specialises in door tracking systems, weather seals, insect screen, replacement wheels & rollers and more products for a wide range of applications.
